Steps for Sending Files through We Transfer

- ▪ Scan and label your documentation. Documentation can be scanned all together as a single file or alternatively a folder can be sent through We Transfer containing individual relevant files. In both scenarios label the file/folder 'Child_Name_Abacas_2024' e.g. **Jane_Smith_Abacas_2024.**

- Go to the website https://wetransfer.com/
- Click **'I agree'** to terms of service.
- Follow the below steps

- **Enter your WeTransfer code.** Before sending your files, WeTransfer needs to verify your email address. You will receive a **six-digit code** via email that you need to enter. This code is active for 60 minutes. If you don't manage to input it in time, you can request a new code.

You'll receive two emails after sending your application through WeTransfer. The first email message includes a confirmation that your file transfer has been sent, and the second one is sent when the school downloads the submitted file.
